of all purgatives for family use. They are the product of long, laborious, and

their extensive use, by physicians in their practice, and by all civilized na-

science can devise. Being purely veg-

use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They have the experient in prefet core and
